After

UNIVERSITY DORMITORY BATHROOM - STATE COLLEGE, PA

PROJECT DESCRIPTION

Project owners wanted the flooring to be durable and water resistant in its daily use as a dormitory bathroom shower floor. A coating that was previously applied on this bathroom floor had failed in a very short period of time, causing water to leak into the hallways. Arisfor ToughDeck® was chosen in order to restore this dormitory bathroom floor on a large college campus in Pennsylvania. An epoxy was applied over top the ToughDeck® in order to enhance the overall appearance and aid in the ability to clean the bathroom flooring. **Overall, the project owners and specifiers were pleased with the products easy application process and quick dry time.**

KEY POINTS

- Quick Dry Time
- Provides Long-Term Durability
- Superior Finish

DETAILS

Date: 2016

Location: State College, PA

Product: Arisfor ToughDeck®

Application: Spray
