## WARNOCK COMMONS PATIO - STATE COLLEGE, PA

### PROJECT DESCRIPTION

A commons area outside a college dormitory was in need of a cost effective restoration method for their existing jointed concrete slabs. The contractor decided to apply Arisfor ToughDeck®, in "Foundation Gray", to the patio area. Arisfor ToughDeck® provides a **long-lasting salt and chemical resistant surface finish** that will work nicely on this college campus. **The jointed tile look was mimicked and a rough texture was applied for a durable and appealing finish.**

### KEY POINTS

- Quick Dry Time
- Provides Long-Term Durability
- Superior Finish

### DETAILS
